

Manual Test Plan for Scopex Money

1. Test Approach

The testing approach for Scopex Money focuses on ensuring the correct functionality, usability, and reliability of the following features:

1. User Registration
2. Adding a Recipient
3. Logout

Key Testing Steps:

- Identify test scenarios and create detailed test cases.
- Define test data requirements and preconditions.
- Specify expected outcomes for each test case.
- Set up a test environment including devices, browsers, and OS versions.
- Document assumptions, risks, and constraints.

Test Environment:

- Devices: Asus Windows Laptop Android mobile devices
- Browsers: Chrome, Firefox, Edge (for web testing)
- OS Versions: Laptop (Windows 11) and Mobile (Android 12)
- Network Conditions: Wi-Fi

Acceptance Criteria:

1. User Registration: The user should be successfully registered and redirected to the dashboard.
2. Adding a Recipient: The recipient should be added successfully and displayed in the recipient list.
3. Logout: The user should be logged out and returned to the login screen.

2. Test Data Requirements & Preconditions

2.1 Test Data Requirements

User Registration Test Data

Test Case

Valid registration

Invalid email format

Duplicate email

Test Data

Name: Preeti Maxien
Email: preeti@gmail.com
Referral Code: SCOPEX123

Name: Preeti Maxien
Email: preeti.com

Name: Preeti Joseph
Email: preeti@gmail.com

Expected Outcome

User is successfully registered

System shows validation error

System prevents duplicate registration

Add Recipient Test Data

Test Case

Valid recipient

Test Data

Name: Preeti Joseph
Nick Name: Preeti
Bank Account Number: 9876543210
IFSC Code: BANK0001234
Country: India

Expected Outcome

Recipient added successfully

Invalid bank account number

Name: Preeti Joseph
Nick Name: Preeti
Bank Account Number: 43210
IFSC Code: BANK0001234
Country: India

System prevents adding the recipient

Logout Test Data

A logged-in user session must exist before performing the logout test case.

2.2 Preconditions
